

CONTROL PANELS

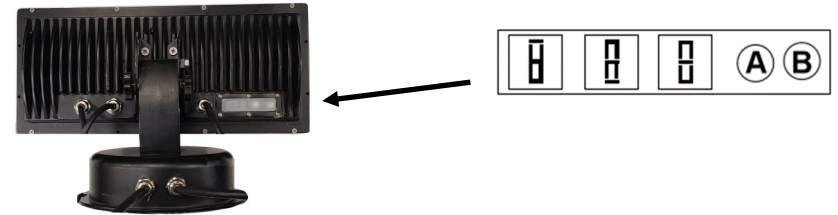

HOW TO OPERATE

1. Plug unit into extension cord or directly to outlet.
2. Click the "A" button four times until the digits read "P # #"
3. Using button B, select the desired colour for the **middle number** as per the corresponding numbers below:

Middle Digit	Colour
1	Red
2	Green
3	Yellow
4	Blue
5	Pink
6	Cyan
7	White
8	Multi- Colour Jump
9	Multi-Colour Fade
A	Multi-Colour Flashing

4. Click the "A" Button until the third digit flashes. Adjust the brightness of the light using the "B" button.
5. When event is complete, unplug unit.
